Possible club pass (CP) movement

Possible club pass (CP) movement

If your club uses Club Pass, it is important to remember a few things:

- 1) The age group of the player being used as Club Pass (CP) is the same as the Primary team he is rostered to. So if you have a U11 rostered to a Primary team that is U12 he CANNOT be used as a CP on a U11 team because he is considered a U12 for the purpose of Club Pass.
- 2) The CP player must be from a same or lower age group team and/or same or lower level of play team.
- 3) A player cannot play with more than 1 team on the same day. There is no requirement a player has to play with his Primary Team in case both his Primary Team and a team he club passes with have a game on the same day.
- 3) Using the chart above, it would be useful for your club to put together a ranked list of your teams together explaining to each team which team they may use players from as Club Pass.
- 4) GotSoccer does not block a player from being added as Club Pass if he is ineligible. Playing an ineligible player can result in a forfeit and/or a D&P hearing!
- 5) It is the responsibility of the player, the coaches (both or the Primary and guest team) and the Director of Coaching (or board member equivalent) to monitor and comply with club pass rules.
